PROFESSIONAL SUMMARY

Full Stack Software Engineer with over 4 years of experience, focused on product, customers and results. Experienced in building web applications, e-commerce platforms and internal systems. I currently work mainly with React, Next.js, TypeScript, Node.js, NestJS, Fastify and relational databases, from interface implementation to architecture, integrations, performance, automation and security.

SKILLS

Front-end	React, Next.js, React Native, TypeScript, TailwindCSS, Zod
State Management	React Query, Context API, Zustand
Backend	NestJS, Fastify, PrismaORM, Nginx, Redis
Databases	MySQL, PostgreSQL
Quality	Cypress
AI	Claude, Codex, MCP, Skills, SDD, AI-assisted development
Tools	Git, GitHub, Bitbucket
Languages	Portuguese (Native) and English (Intermediate)

PROFESSIONAL EXPERIENCE

Full Stack Software Engineer 2026 – Present
Better EdTech

- Responsible for developing the company's management and billing platform using React, Next.js, Fastify and PostgreSQL, connecting business rules with the needs of internal users and sales representatives, and integrating sales flows, payment gateways and ERPs.
- Applied AI tools (Claude, Harness, MCPs and SDD) to speed up development, documentation and delivery.

Full Stack Developer 2025 – 2026
Rozac

- Developed and maintained full-stack applications using React, Next.js, TypeScript, NestJS, Prisma, Redis and Nginx.
- Created Rozac Studio, an AI platform that generates mockups (showing materials applied to various objects) and custom promotional banners (Facebook, Instagram, WhatsApp — Stories and feed) for each sales representative, increasing the company's exposure, drastically reducing paid-media costs, speeding up content production and increasing sales conversion opportunities.
- Introduced MCPs, Skills, Cypress and AI-assisted development practices, increasing productivity, quality and delivery reliability.
- Built internal tools for secure SQL query management and maintenance scheduling without direct dependence on the technical team.

Full Stack Developer Sep 2022 – Apr 2025

Inversa Desenvolvimento Digital

- Developed e-commerce platforms, web/mobile applications and corporate systems using React, React Native, Next.js, PHP and MySQL.
- Reduced the execution time of a critical e-commerce query from 11 seconds to under 1 second, significantly improving the user experience.
- Fixed a vulnerability in a multi-currency environment caused by cookie manipulation, increasing the security of international transactions.
- Developed a complete recurring purchase system, including database modeling, cron job automation and business rules.
- Worked on legacy systems and provided technical mentorship to an intern, through onboarding and code reviews, until they were hired.

Front-end Development Intern Mar 2022 – Sep 2022

Inversa Desenvolvimento Digital

- Built responsive interfaces from Adobe XD and Figma prototypes using HTML, CSS, JavaScript, jQuery and PHP.
- Implemented landing pages, institutional websites and email marketing campaigns for different clients.
- Applied SEO, accessibility and performance improvements to optimize the user experience.
